Briwnwood, Aug. 20.—Our little city is first Letting Into mighty importance. A railroad meeting was called at the opera house last week by agents of a railroad line to be run from the coast to San Antonio, thence by way of Brownwood cressing the T. & P. at Cisco to Kansas City, Mo. Fifty thousand dollars was asked from our city and in Just thirty minutes they had subscribed thirty thousand dollars. Another scheme is to bring a road to Cisco and still another from read to Cisco and still another from Hico on the Central. It is thought work will certainly begin at some of these points in the next sixty days. Our town is on the boom; new residences, new store rooms and the cry of "all aboard for Kansas City and the East."

WASHINGTON.

An Episode in Virginia Politics-Applying the Mahone Test. Delayed Special.

St. Louis, August 21.—A Washington special to the Republican says, Capt. Beatty, one of Mosby's lieutenants, has been for twelve years deputy collector of internal revenue at Alexandria, Va. Recently the district in which he was deputy was consolidated with another, and a new collector, Captain Craig, a readjuster, was ap-pointed for the new district. Captain Beatty was re-appointed deputy collector for Alexandria. He went to NORTHEAST SOUTHEAST Staunton to obtain his commission. Captain Craig said as he signed it:
"It is understood, of course, that you

will support the coalition movemen "It is understood nothing of the sort," said Beatty. "I am a Republican, have been since the war, and never will be anything else, and besides I have never used my office as an electioneering engine, and I won't do it now. I have always conducted it on business principles. 1 can't sup-port Mahone very well." Said Craig: "You can't have the

commission.'

So Beatty has gone back to his Fair-fax county farm, and Kenyon, a subservient readjuster, has been appointed deputy at Alexandria.
